

I am a FLIGHT ATTENDANT who works mostly B position on our airline.

I STRONGLY PROTEST ANY DECISION THAT IS MADE TO ALLOW PASSENGERS THE USE OF CELL PHONES IN THE AIR. There are many reasons for this choice.

1. Difficulty in getting the attention of PAX in the event of an emergency.
2. The invasion of individual space and privacy for those that chose to use the flight time in mental rest.
3. MOST IMPORTANT: For the safety of ALL passengers.

I would like all those who feel allowing the use of a cell phone after takeoff to take a trip on a large aircraft and all passengers take advantage of this "choice". IMAGINE 190 persons all talking or yelling to keep contact on a phone. TRY THE FLIGHT, test it out and then tell me it's a good choice. NEVER WILL I BELIEVE THIS TO BE TRUE.

I STRONGLY PROTEST ANY FAVOR OF DECISION ON THIS MATTER.

Sincerely,
Peggy Gustafson
